

Working Age People

Local GP practices have teamed up to improve the way we provide weekend and evening appointment for our patients. This service is for all patients however we feel it will help accommodate our working age population as this service is provided out of core hours.

This new service will begin on Saturday 1st October 2023 it and will mean that most people will be able to book weekend and evening appointments closer to where they live. For our patients we will be providing appointments here at Crystal Peaks Medical Centre along with Jordanthorpe Medical Centre.

Remote and face-to-face appointments can be made with a variety of GP practice staff including Doctors, Advance Care Practitioners, Nurses, Nurse Associates, Health Care Assistants, Physiotherapists and, Pharmacists.

Initially appointments can be booked through you practice, but we will soon be adding the option for patients to book direct online and through NHS 111.
