

DEAR PATIENTS,

**Following the government guidance on Monday 15<sup>th</sup> of June 2020, all patients entering this health centre are strongly advised TO WEAR A FACE MASK OR A FACE COVERING.**

**If you attend the practice with gloves on, you will be asked to remove them as when used incorrectly (which has been observed in public of late) spread bacteria and are intended for single use only.**

**Hand Sanitizers would be provided you on entry into this health centre. Our staffs also carry out cleaning intermittently throughout the course of the day.**

**Thank you for your understanding!**
