

## **Westfield Medical Practice**

In the coming months you may notice changes to your repeat prescription, **if suitable** your repeat prescription will move to a serial prescription. This means you would no longer need to order your repeat prescription from the practice for the next year and your pharmacy will dispense from the serial prescription.

**We advise all patients to continue to attend their annual review appointments, blood monitoring and appointments as normal.**

We are hopeful this new incentive run by your local HSCP and GP practice, provide a more efficient service to all.

Thank you once again for you continued support.
